Profile

Experienced Software Developer and QA Test lead adept in all stages of advanced web development and server management. Knowledgeable in user interface, testing, and debugging processes. Bringing forth expertise in web system design, installation, testing and maintenance. Equipped with a diverse and promising skill-set. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Employment History

Test Lead, Testlio, Remote

NOVEMBER 2022 – PRESENT

- Collaborated with a cross-functional team of testers, test coordinators and test leads to identify and resolve critical bugs before release
- Authored over 300 test cases working with the client using Jira, XRay and the Testlio platform
- Improved test execution time by recruiting new testers and improving test case quality based on feedback

Software Developer, Cadre Project Support Solutions Pvt Ltd, New Delhi

FEBRUARY 2022 – JUNE 2023

- Collaborated with the team in building the backend, server handling, bugfixing and developing new software solutions for event management and staffing.
- Built REST APIs using the Django REST Framework.
- Hosted the Django backend on a general-purpose AWS EC2 instance(t2.micro) using Nginx, Unicorn and MySQL as the stack.
- Designed, developed and hosted the backend (using Django REST Framework) on an AWS EC2 server and helped develop the business logic for the Cadre App, which is now available on Google Play Store.

Full-stack Developer, EatX (Formerly Cokit), New Delhi

AUGUST 2021 – JANUARY 2022

- Worked under the co-founder to develop dynamic web applications for the company's clients using HTML, CSS, JavaScript.
- Helped in building the backend architecture and business logic for the EatX webapp, and wrote REST APIs for the same using the Django REST Framework.
